

Key Stage 1

Symmetry in Silver

Key Stage 1 Symmetry in Silver

As you can see from this photo the Hart family are very busy. So busy in fact, they really need your help.

Can you look through some of their drawings and let them know which ones are symmetrical?

- Use a mirror to check for the line of symmetry.
- Then draw it on in pencil.

When you have finished, give this sheet to your teacher so they can let the Hart family know. Thank you!
